"Linum Alpinum extracts"

Alps 3 major flower

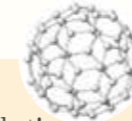

"Alpine rose active"

"Horehound extracts"

Scalp aging care

Improve aged scalp to healthy condition from low elasticity and low moisture due to the aging.

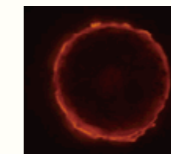

- ▶ Fullerene
One of the hottest materials in the market!
<Effects to hair>
- Care for damage...control the damage of hair from ultraviolet
- Care for aging...protects hair from outer damage and lead to beautiful hair.

- ▶ Fulvic acid extract
Rich in amino acid, minerals, and vitamin

Volume up and moisturizing of hair

"Highly polymerized hydrolysis Keratin (sheep wool)"

It seeps into the damaged part to protect hair surface and give tension & firmness

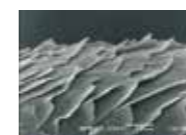

Cross section of hair *photo provided by Seiwa Kasei Co.,Ltd.

"Heat active keratin (sheep wool)" / "Heat active silk"

By adding heat, the components bond together to form a skin that coat hair surface.

Keratin provides tension & firmness while silk provides gloss & softness

Damaged hair

Finished with heat active materials

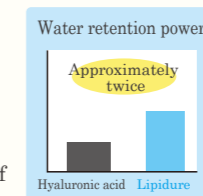

*photo provided by Seiwa Kasei Co.,Ltd.

"Hydrolysis pea protein"

It prevent hair cuticle from lifting up then lead into smooth touch

"Nano lipidure"

It has moisturizing power twice as much of hyaluronic acid's. It will seep into the deep part of hair to add moisture.

*Based on company research

UV care

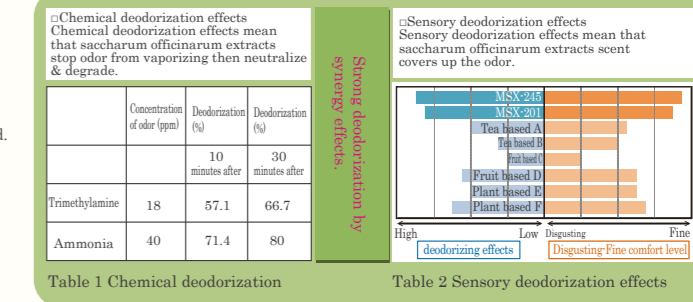

Protect precious hair from Ultraviolet (UV-A, UV-B wave).

- UV-A wave...excess control on melanin
- ▶ Diethylamino hydroxybenzoyl hexyl benzoate
- UV-B wave...protect the hair cuticle from damage
